

[RIMS Release notes]- Expert Community search

02/03/2021

New feature-Global Search

- You can now use "Expert Community search" to search and be searched by global researchers by your name and your research keywords

How to use

- Go to our research portal-Profiles: <https://research.gtiit.edu.cn/en/persons/>, this feature only shows on the profiles tab
- Type an expert name or keyword of research, e.g. "temperature" and click search icon or press "enter" on the keyboard
- First, it will only display the GTIIT profile search result, then you can see a toggler called "Switch to Experts Community search" on the middle-right of the screen, under search bar, turn this on

 Find Profiles

temperature 

[Advanced search](#)

SEARCH CONCEPTS

Temperature
 Hot Temperature
 Thermal Gradients
 Superconducting Transition Temperature
 Cryogenics

29 results | Relevance > |  | [Export search results](#) [Turn this on](#)  Switch to Experts Community search 

Showing results for temperature as a concept 

Did you want to search for temperature as free text

 **Ziyi Zhong**
Chemical Engineering - Dean for Research
1995  2021
 84 matches

 **Klaus-Dieter Liss**
Materials Science and Engineering - Deputy Dean of Graduate Studies
1991  2021
 57 matches

 **Moshe Eizenberg**
Materials Science and Engineering - Dean of Graduate Studies, Head of Materials Science and Engineering Program
1978  2021
 49 matches

- Then you can get the global researcher's profile who has a "temperature" fingerprint.
